CONFIRMED CASES IN MISSOURI : 47

Patients Tested at Missouri State Public Health Laboratory and CDC*

Negative	369
Deaths	1 (Boone County)
Positive	26
Total Patients Tested	395

Labs are required by the Missouri Code of State Regulations to immediately report positive COVID-19 test results. It is important to note that results received from these labs are from patient samples taken over a period of time due to potential testing backlogs. As commercial labs increase their capacity for testing, we will continue to receive results from them requiring immediate verification of patient data for each result. Prompt efforts to protect the public's health depends on this verification. Patient data from commercial labs is preliminary and subject to change following initial public health involvement.

Cases by County**

County	Positive by State Public Health Laboratory	Positive by Commercial or Other Laboratory
Boone	1	2
Cass	2	1
Christian	2	
Cole	2	
Greene	6	

Henry	1	
Jackson	1	2
