**WHAT
WILL
HAPPEN
WHEN WE
HAVE A
POSITIVE
TEST??**

The testing facility and health department will be notified of a positive COVID-19 test.

The healthcare provider will notify the individual of the result and continue to provide care or education.

The local public health department will contact the case to outline guidance for continued care, seek to identify other people who might have been exposed and share resources.

The local public health department will contact all the identified close contact, provide education and guidance on next steps.

A press release will be issued to notify citizens of the positive case. In order to protect privacy, the health department will only release the gender, age range, and county of residence. Please understand the importance of privacy during this time.
